ABOUT ME

Computer Technology and Information Systems graduate with hands-on experience in full-stack development, including React, React Native, Node.js, NestJS, Laravel, and MySQL. Led and contributed to two TÜBİTAK-funded projects, demonstrating strong leadership and problem-solving skills. Passionate about creating innovative, user-centered solutions and collaborating effectively within teams.

EXPERIENCE

Beyoglu District Governor's Office – Internship

August 2023- September 2023

- Conducted as part of the National Internship Program.

Cakey – Full Stack Developer

September 2024 - November 2024

- Built and optimized features using React.js & Firebase.
- Handled both front-end & back-end tasks, including debugging and code reviews.

PROJECTS

AI-Powered Storytelling App (TÜBİTAK)

- React Native, MongoDB, NestJS, Cloudinary, Expo
- AI-supported mobile app that helps children create fairy tales and visuals.
- Full-stack dev – built storytelling logic & AI image generation.

EcoOil – Waste Oil Recycling App (TÜBİTAK)

- React Native, Laravel, SQLite, Expo, Google Maps
- Mobile app for waste oil pickup with map density and scheduling.
- Project manager & full-stack dev – led full app development.

Real-Time Messaging App

- ReactJS, Firebase
- Live chat app with real-time messaging and user auth.
- Full-stack dev – developed UI, backend, and chat logic.

Animal Adoption Website

- HTML, CSS, SQL Server, ASP.NET MVC
- Web app to manage pet adoption and admin listings.
- Full-stack dev – designed UI and built database functions.

Beauty Center Management System

- MySQL, Bootstrap
- Multi-tenant system for appointments and inventory tracking.
- Full-stack dev – created admin dashboard and backend.
